THE VOICE OF THE LIGHTING INDUSTRY

LightingEurope Open Days Discover the Value of Membership

Elena Scaroni
Secretary General

elena.scaroni@lightingeurope.org 29 October 2025

General Code of Business Conduct

- Under no circumstances should Members exchange information on any competitive parameter.
- Information to be exchanged shall be limited to that necessary to accomplish implementation of the LightingEurope policies.
- Any Sensitive Competitive Information shall be provided, if necessary, only to an independent third party offering satisfactory guarantees of confidentiality.
- Every meeting between Members shall have a specific, demonstrable purpose.
- Any contact between Members shall be for a legitimate purpose only.
- Any violation shall be seen as a serious breach and shall be severely sanctioned.

Webinar housekeeping rules

- All webcams and microphones will be turned off, with the exception of the speakers.
- Comments and Questions are welcome via the Chat box. Please indicate to whom your question is addressed.
- Please make sure your name and surname are clearly shown. We will prioritize questions submitted by people with a clear name, surname and affiliation.
- The webinar is recorded and will be published on our You Tube channel. By connecting, you accept that your name (and image if you turn on your camera) will appear.
- No Artificial Intelligence tool is allowed.
- Slides and recording of the webinar will be sent to participants and made available on our website.
- Please give us your feedback on this event – [here](#).

Our Speaker today **Elena Scaroni**

Elena Scaroni is LightingEurope's Secretary General, appointed in June 2023.

She served as Policy Director since joining LightingEurope in September 2016, advocating the interests of the European lighting industry in the recent ecodesign and energy labelling regulations for light sources.

Before LightingEurope, she spent eight years in European affairs at Enel, a multinational energy company. Her responsibilities included managing relations with the European Parliament.

She studied in Rome and Paris and holds a master's degree in law, specialising in European Affairs.

Influencing legislation on key files for the Lighting Industry

LE is already influencing the future Ecodesign (SLR) Energy Labelling & WEEE rules for lighting

Article 9 of SLR (review clause)

- Repairability
- Lifetime
- Energy efficiency requirements
- Lighting controls
- Quality (Stroboscopic and flickering)
- Control gears
- Dimming
- Stand-by power
- CRI
- Exemptions

ESPR Framework + WEEE Review

- Critical raw Materials
- Recycled Content
- DPP
- Remanufacturing
- Substances of Concern
- Unsold consumer goods
- New collection targets and EPR fees

We are working towards clarification and simplification of current rules

LightingEurope's requests on PFAS (forever chemicals)

- Did you know that the EU could potentially ban all products containing PFAS, including lighting products?
- If you do not request an exemption for your specific product type, your products may be automatically banned.
- Do you think your products are covered by LightingEurope's requests? We are now updating our list of products for our industry
- Only you know the specifics of your products and can properly defend why an exemption should be necessary

LightingEurope's public statement on Taxonomy + our request to have luminaires included

We are calling for **inclusion of manufacturing of luminaires** as a whole in the EU Taxonomy as enabling activity.

Following a new meeting with the EU Commission in June 2025, a new proposal is being discussed for inclusion

LightingEurope's Statement on EU Taxonomy

Classification of luminaire manufacturing

The EU Taxonomy is a green classification system that translates the EU's climate and environmental objectives into criteria for specific economic activities, for investment purposes.

In its current version, the Delegated Act of the EU Taxonomy which establishes the Technical Screening Criteria (TSC) for determining when an economic activity qualifies as contributing substantially to climate change mitigation or climate change adaptation¹ covers manufacturing of lighting products in activity "3.5. Manufacture of energy efficiency equipment for buildings". Specifically, in this section the manufacturing of light sources and of presence and daylight controls for lighting systems are expressly mentioned among the economic activities eligible for Taxonomy.

The current wording in the Regulation, as described above, does not provide full clarity on the classification of the manufacturing of all lighting products in the EU Taxonomy for climate change mitigation and adaptation purposes, which has created some uncertainty in the market.

LightingEurope believes that it would be beneficial if manufacturing of luminaires as a whole would also be explicitly mentioned as an enabling activity for Taxonomy climate change mitigation and adaptation, with relevant and specific Technical Screening Criteria.

For this reason, LightingEurope is working to help clarifying the wording of the activity definitions, including the Technical Screening Criteria, in view of a possible future amendment of the legislative act.

Contact

For further information on this topic, please contact Teresa Selvaggio, Director of Public Affairs, through teresa.selvaggio@lightingeurope.org.

LightingEurope is the voice of the lighting industry, based in Brussels and representing 31 companies and national associations. Together these members account for over 1,000 European companies, a majority of which are small or medium-sized. They represent a total European workforce of over 100,000 people and an annual turnover exceeding 20 billion euro. LightingEurope is committed to promoting efficient lighting that benefits human comfort, safety and wellbeing, and the environment. LightingEurope advocates a positive business and regulatory environment to foster fair competition and growth for the European lighting industry. More information is available at www.lightingeurope.org.

How to apply

Criteria to Become a Member

If you are

Company

OR

Association

You need:

- To be a manufacturer of lighting products or components of lighting products with offices in at least a country of continental Europe
- To be a member of one of the national lighting associations (unless no relevant association is a member - then 50% increase will apply)
- To have significant R&D activity (no pure importers)
- Only the company ranking highest in the group becomes member

You need:

- An association representing lighting manufacturers at national level in Continental Europe (no regional associations allowed)

Become a member in 2025

A form has to be filled and signed, indicating:

- the Global and European lighting Turnover for companies,
- the Turnover of your members for associations,
- the correspondent Fees, and
- the Working Groups or Group where you want to contribute to.

Current form available here until end of 2025 – Contact us!

[Become a member – LightingEurope](#)

Membership Fees in 2026 – Try our simulator based on our new Bylaws

If you are a national association

The screenshot shows the 'Membership Fee Simulator' interface for a national association. At the top is the LIGHTINGEUROPE logo with the tagline 'THE VOICE OF THE LIGHTING INDUSTRY'. Below the title, the 'Type' dropdown menu is set to 'Association'. The 'Turnover Amount (in millions)' input field contains the value '232'. A green 'Calculate' button is positioned below the input field. At the bottom, the result is displayed as 'Estimated fees: €8620.00'.

If you are a company

The screenshot shows the 'Membership Fee Simulator' interface for a company. At the top is the LIGHTINGEUROPE logo with the tagline 'THE VOICE OF THE LIGHTING INDUSTRY'. Below the title, the 'Type' dropdown menu is set to 'Company'. The 'Turnover Amount (in millions)' input field contains the value '232'. A green 'Calculate' button is positioned below the input field. At the bottom, the result is displayed as 'Estimated fees: €43440.00'.

Turnover does not include export to other countries

Only European Turnover is relevant

A surprise for you

**For those who are not yet
sure to become a member
today**

You are invited: Become a Guest for 6 months

- An Executive to sign a form indicating:
 - the lighting turnover
 - the correspondent fees in case you become a member
 - the Working Groups or Group where you want to contribute to
 - that you accept our Code of conduct
- Be part of Working Groups, Task Forces, our webinars and GA
- In June let us know if your company wishes to continue with us in 2026 and 2027
- Apply by 30 November
- Only 5 candidates will be accepted, *first come first served*

Do you fulfill all conditions to be a member? Fill the form you will receive by email.

Take part for free to LE activities from January to June 2026

Become a LightingEurope member
